

Nature

Author: sapanad

Created: December 17, 2025

Language: English

Word Count: 90

Category: General

Nature is the most precious gift given to us by God. It includes trees, mountains, rivers, animals, and the sky that make our planet beautiful and livable. Nature provides us with everything we need—food, water, air, and shelter. Spending time in nature helps us stay calm and happy. Unfortunately, human activities like deforestation and pollution are destroying it. We must take steps to protect and preserve our environment by planting trees and reducing waste. A clean and green nature ensures a healthy future for all living beings on Earth.
